

SAFETY DATA SHEET

1. Identification

Product identifier	INSWOOL CG BLANKET 4#, 6#, 8# DENSITIES	
Other means of identification		
Brand Code	0924, 7206, 7207	
Recommended use	 Primary Use: Refractory Ceramic Fiber (RCF) materials are used primarily in industrial high temperature insulating applications. Examples include heat shields, heat containment, gaskets, expansion joints, industrial furnaces, ovens, kilns, boilers and other process equipment at applications up to 1400°C. RCF based products are not intended for direct sale to the general public. While RCFs are used in the manufacture of some consumer products, such as catalytic converter mats and wood burning stoves, the materials are contained, encapsulated, or bonded within the units. Secondary Use: Conversion into wet and dry mixtures and articles (refer to section 8). Tertiary Use: Installation, removal (industrial and professional) / Maintenance and service life (industrial and professional) (refer to section 8). For Industrial Use Only 	
Recommended restrictions	Avoid dry cutting, blasting, or dust generation.	
Manufacturer/Importer/Supplier/	Distributor information	
Manufacturer		
Company name	HarbisonWalker International	
Address	1305 Cherrington Parkway, Suite 100	
	Moon Township, Pennsylvania 15108 US	
Telephone	General Phone: 412-375-6600	
Website	www.thinkHWI.com	
Emergency phone number	Not available.	
2. Hazard(s) identification		
Physical hazards	Not classified.	

Physical hazards	Not classified.	
Health hazards	Carcinogenicity	Category 2
Environmental hazards	Not classified.	
OSHA defined hazards	Not classified.	

Label elements

Signal word	Warning
Hazard statement	Suspected of causing cancer.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If exposed or concerned: Get medical advice/attention.
Storage	Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Aluminosilicate Refractory Cera Fiber	mic Refractory Ceramic Fiber/Fibre (RCF) High Temperature Insulation Wool (HTIW) Synthetic Vitreous Fiber (SVF) Man-Made Mineral Fiber (MMMF) Man-Made Vitreous Fiber (MMVF) Alumino Silicate Wool (ASW)	142844-00-6	80 - 100
Composition comments	This product contains Refractory Ceramic Fibers (I classified RCFs as a possible human carcinogen, sufficient evidence of carcinogenicity in animals ar respirable RCFs as reasonably anticipated carcino study was issued in 2017 (LeMasters et al., in pre follow-up, no excess of lung cancers in the mortalir radiographic findings of interstitial fibrosis were fou found a small incidence of other effects that appear report did not change the current hazard classifica handling methods are followed, including air monit airborne fibers, minimizing airborne exposures thro wearing protective clothing, gloves, and eye protect www.htiwcoalition.org Please review the workplace	Group 2B. This classification of no available data in hum gens. The final report of the ss). The study concluded to the study and no significant a und in this group of workers r unrelated to RCF exposu- tion for RCF. HWI recommoning in areas wherever the bough use of NIOSH approve- tion. For additional information	n was based on ans. NTP classified te USA mortality hat "after 30 years of association with ." The study also re. The final mortality nends that safe to potential exists for ed respirators, and tion please visit
4. First-aid measures			
Inhalation	Move to fresh air. Call a physician if symptoms dev		
Skin contact	Wash off with soap and water. Get medical attention	•	persists.
Eye contact	Rinse with water. Get medical attention if irritation	• •	
Ingestion Most important symptoms/effects, acute and delayed	Rinse mouth. Get medical attention if symptoms of Direct contact with eyes may cause temporary irrit		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat syn Symptoms may be delayed.	nptomatically. Keep victim	under observation.
General information	IF exposed or concerned: Get medical advice/atten	ntion.	
5. Fire-fighting measures			
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrou	unding materials.	
Unsuitable extinguishing media	Not available.		
Specific hazards arising from the chemical	Not applicable.		
Special protective equipment and precautions for firefighters	Not available.		
6. Accidental release measures			
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people a appropriate protective equipment and clothing duri personal protection, see section 8 of the SDS.		
Methods and materials for containment and cleaning up	Stop the flow of material, if this is without risk. Follo Put material in suitable, covered, labeled contained SDS.		
Environmental precautions	Avoid discharge into drains, water courses or onto	the ground.	
7. Handling and storage			
Precautions for safe handling	Obtain special instructions before use. Do not han and understood. Avoid prolonged exposure. Shoul Provide adequate ventilation. Wear appropriate pe industrial hygiene practices.	d be handled in closed sys	ems, if possible.
Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Store away from i SDS).	ncompatible materials (see	Section 10 of the

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. NIOSH: Pocket Guide to Components	Type	Value	Form
Aluminosilicate Refractory Ceramic Fiber (CAS 142844-00-6)	TWA	15 mg/m3	Total dust
US. NIOSH: Pocket Guide to	o Chemical Hazards		
Components	Туре	Value	Form
Aluminosilicate Refractory Ceramic Fiber (CAS 142844-00-6)	TWA	5 fibers/cm3	Respirable Fibrous dust
		0.5 mg/m3	Fiber, total
Biological limit values	No biological exposure limits noted for	or the ingredient(s).	
Exposure guidelines	Recommended Exposure Guideline 0.5 Fiber/CC There is no specific regulatory standard for RCF in the U.S. OSHA's "Particulate Not Otherwise Regulated (PNOR)" standard [29 CFR 1910.1000, Subpart Z, Air Contaminants] applies generally; Total Dust 15 mg/m3; Respirable Fraction 5 mg/m3. The High Temperature Insulation Wool Coalition (HTIW) has sponsored comprehensive toxicology and epidemiology studies to identify potential RCF-related health effects [see Section 11 for more details], consulted experts familiar with fiber and particle science, conducted a thorough review of the RCF-related scientific literature, and further evaluated the data in a state-of-the-art quantitative risk assessment. Based on these efforts and in the absence of an OSHA PEL, HTIW has adopted a recommended exposure guideline, as measured under NIOSH method 7400B. The manufacturers' REG is intended to promote occupational health and safety through prudent exposure control and reduction and it reflects relative technical and economic feasibility as determined by extensive industrial hygiene monitoring efforts undertaken pursuant to an agreement with the U.S. Occupational Safety and Health Administration (OSHA). OTHER OCCUPATIONAL EXPOSURE LEVELS (OEL) Non-regulatory OEL decisions also vary. The evaluation of occupational exposure limits and determining their relative applicability to the workplace is best performed, on a case-by-case basis, by a qualified Industrial Hygienist.		
controls	should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.		nmended exposure limits. If
•	, such as personal protective equipm		
Eye/face protection	Wear safety glasses with side shields	(or goggies).	
Skin protection Hand protection	Wear appropriate chemical resistant	gloves.	
Other	Wear appropriate chemical resistant	clothing. Use of an impervious a	apron is recommended.
Respiratory protection			e to dust/fume at levels
Thermal hazards	Wear appropriate thermal protective	clothing, when necessary.	
General hygiene considerations	Observe any medical surveillance rec measures, such as washing after har smoking. Routinely wash work clothi	dling the material and before ea	ating, drinking, and/or
9. Physical and chemical	properties		

9. Physical and chemical properties

Appearance

Physical state	Solid.
Form	Solid.

Color	Not available.
Odor	Not available.
Odor threshold	Not available.
	Not available.
pH Malting paint/freezing paint	Not available.
Melting point/freezing point	
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Incompatibility is based strictly upon potential theoretical reactions between chemicals and may not be specific to industrial application exposure.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Acute toxicity	Not known.	
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.	
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.	
Respiratory or skin sensitizatior	1	
Respiratory sensitization	Not a respiratory sensitizer.	
Skin sensitization	This product is not expected to cause skin sensitization.	
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.	
Carcinogenicity	Suspected of causing cancer.	
IARC Monographs. Overall I	Evaluation of Carcinogenicity	
Aluminosilicate Refractor 142844-00-6)	y Ceramic Fiber (CAS 2B Possibly carcinogenic to humans.	
OSHA Specifically Regulate	d Substances (29 CFR 1910.1001-1052)	
	ogram (NTP) Report on Carcinogens	
Not listed.		
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.	
Specific target organ toxicity - single exposure	Not classified.	
Specific target organ toxicity - repeated exposure	Not classified.	
Aspiration hazard	Not an aspiration hazard.	
Chronic effects	Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects.	
12. Ecological information	l de la constante d	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.	
Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.	
Bioaccumulative potential	No data available.	
Mobility in soil	No data available.	
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.	
13. Disposal considerations		
Disposal instructions	This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.	
Hazardous waste code	Since this product is used in several industries, no Waste Code can be provided by the supplier. The Waste Code should be determined in arrangement with your waste disposal partner or the responsible authority.	
Waste from residues / unused products	Not available.	
Contaminated packaging	Not available.	
14. Transport information		
DOT		

Not regulated as dangerous goods.
